Easy-to-use weblog publishing app Publish multiple blogs with a single account Configure customizable layouts Insert custom images, multimedia, links and charts App-based, no downloads or installations needed Powerful and reliable blog publishing app Install and publish multiple blogs from the same account in just a few minutes with this smart weblog publishing app. Create gorgeous-looking articles on your web page with the added convenience of live site previews or use premium HTML templates in your content, without spending a dime. Start a free OpenLiveWriter trial and try out the powerful features of the app today. Features The app can be used with all the platforms that support Wordpress or Blogger, thus allowing you to publish blog entries in a way that looks perfect on all screens. Modify your blog design Choose between two themes, customize them with different colors, background images and margins by using our in-app color picker. Edit your text Select font, size and color from our easy-to-use color picker to customize the text and layout of your posts. Access premium HTML templates Publish content from premium HTML templates directly on your weblog, without requiring any downloads or installations. Make your own banners, headers, footers and widgets, and customize the look of the templates to create a unique and personalized blog. Insert custom images, charts and multimedia The images, charts and multimedia you insert into your posts are displayed in full screen once published, so you can see the change you made in real time. Insert hyperlinks Link to a web page, other blog, a video on YouTube or a photo on Flickr. You can also add customized text to the links so you can include a summary of the page or image you are linking to. Browse and import posts from other blogs Browse the archives of other blogs, and use the import feature to upload posts or categories from them directly to your weblog. Preview your post By using the live site preview feature, you can check if your post looks correctly when published on your web page. Publish an article Publish your post on your weblog and access it directly from the Home screen. The hyperlink with the title of the post is added automatically to the post. OpenLiveWriter's support is a key feature. OpenLiveWriter's support
